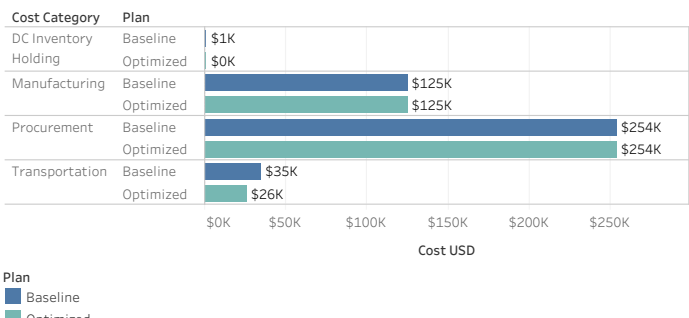
Network Cost & Optimization Performance

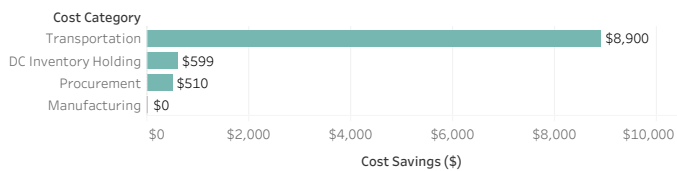
Executive KPI Cards

Baseline Cost	Optimized Cost	Net Savings
$414.1K	$404.1K	$10.0K

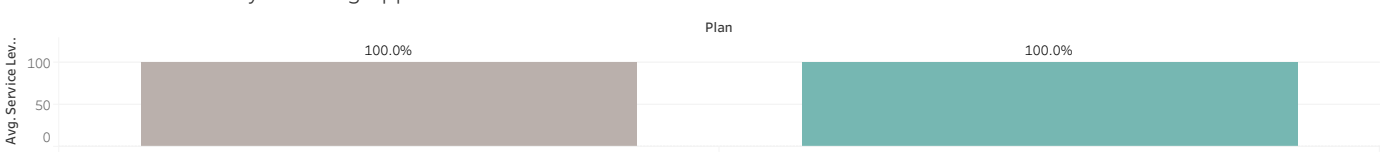
Baseline vs. Optimized Network Costs



Optimization Savings by Cost Category



Customer Fulfillment by Planning Approach



The optimized supply network reduced modeled 12-week operating costs by 2.42% ($10,008.50), driven primarily by $8,900 in transportation savings, while maintaining 100% customer demand fulfillment.
